## WHAT DO YOU KNOW ABOUT COACHING & MENTORING FOR COACHES?

*The International Coaching Federation defines coaching as partnering with clients in a thought-provoking and creative process that inspires them to maximize their personal and professional potential. As an ICF Coach, I apply this definition to my understanding of coaching and its effectiveness in helping coaches achieve goals and overcome obstacles through the coaching process. ### EXPERT COACH MENTORING & ICF CREDENTIAL SUPPORT

The International Coaching Federation (ICF) defines coaching as partnering with clients in a thought-provoking and creative process that inspires them to maximize their personal and professional potential. As an ICF Professional Certified Coach (PCC), I apply this definition to supporting fellow coaches in their journey toward excellence, credentialing, and practice development.

Coach mentoring goes beyond basic coaching. It combines deep expertise in ICF competencies, cultural sensitivity, and evidence-based approaches to help you master the art and science of professional coaching. You'll develop the confidence and capabilities

needed for ICF credentialing and building a sustainable coaching practice through individualized support and structured guidance.
